

Combi PLAZA

Combi Plaza Boeung Rang (CPBR) Childcare and Education Philosophy

In the best interest of Students, CPBR emphasizes individual growth for students to become confident global citizens by providing advanced, safe, healthy and caring learning-environment. Students will feel as though they are in their second home because of our dedication to them as a family.

1. Our vision

It is our goal to ensure CPBR Students learn to:

- Think and act on one's own;
- Manage one's own affairs;
- Determine right from wrong, and act thoughtfully;
- Appreciate friendship and be considerate;
- Understand the importance of certain rules and try to observe through interactions

2. Holistic learning approach and core competence

CPBR believes that for the sound development of Students, not only memorizing textbook information is important, but also moral, emotional and physical cultivation are important. Therefore we provide holistic education covering areas satisfying global demands, individual development needs, and academic learning requirements.

Above all, CPBR puts emphasis on developing Students' sense of morality, forming their adequate dietary behavior, and establishing their environmental consciousness through daily life and experience.

Combi PLAZA

- **Moral Education**

When surrounded by diversified values, one may encounter a situation where it is difficult to judge good from bad. In order to have each child enable to make right judgment by looking into oneself, CPBR encourages Students to form appropriate living habits and to have good morals through experiences such as interaction with friends and adults. CPBR also focuses on ensuring environment where Students feel loved by others so that in turn they are gentle to friends and others. Self-control is another important aspect CPBR asserts.

- **Dietary Education**

Through various hands-on activities such as cooking, gardening, dining, and studying from books, Students will acquire important dietary knowledge, behavior and manner that are indispensable for healthy living and social life.

At CPBR, a variety of hot and fresh lunch with handmade snacks are served daily for all ages. Recipes for age-appropriate, nutritious and delicious meals are taken directly from the Nutrition-book developed by experts at childcare facilities in Japan.

- **Environmental Education**

Preserving nature and living eco-friendly life are our great responsibilities for a sustainable future.

CPBR offers programs such as nature/outdoor activities; experience of transforming what we assume to be obsolete into something useful; or activities involving parents to further encourage Students to be considerate of surrounding nature and protect the environment, while having fun.

3. Curriculum

CPBR thinks highly of learning English at an early age as one of basic skills in the era of globalization, in addition to fulfilling academic learning requirements in the area such as literacy, math, knowledge and understanding. In this regard, CPBR plans to adopt an English-based curriculum, “International Primary Curriculum,” to be taught by native English teachers for Students aged 3 years and over.

For younger ones, emphasis will be put on play-based activities, also instructed by native English teachers, where Students can become familiar with English through songs, picture books, and playing while having fun.

Combi PLAZA

For all age, physical activities such as swimming, gymnastics and outdoor activities will be implemented for the development of motor skills and sound growth.

Throughout the curricula, CPBR cultivates Students's capacity and potential through stimulating five senses, and fosters rich humanity and consideration.

Several conventional events and custom of the world will be incorporated into curriculum to provide Students chances to have an experience and deepen respect for traditions and culture.

4. Communications with parents

- ✓ CPBR ensures active correspondences with parents so that they can be fully informed of Students's activities at CPBR. For instance, Each student is required to have a "Parent-Teacher Communication Book," written by a homeroom teacher everyday to inform the their parents about the events in the day. On other occasions, parents meetings will be also organized several times a year to promote close relationship.
- ✓ To realize care and education appropriate for the individual level of development, CPBR teachers comprehends each child through communications with parents.
- ✓ Parents are always welcome to visit or call CPBR. A Principal and a Head English Teacher are happy to help with any questions, requests, and consultations.

5. CPBR Unique Advantages:

- ✓ Live webcam images are accessible via Internet by registered parents to see how their children are doing at CPBR at any time.
- ✓ Stringent safety and security measures are taken at the CPBR premises, which are designed and constructed in line with very strict Japanese standards, such as Double-door security entrance, children's emergency slide for high levels classrooms, and more. Parents can rest assure their children are in safely guarded facility without any concerns.
- ✓ CPBR conducts regular dental and physical examinations by designated doctors to all Students in order to check status of child's overall health and development, of which results will be reported to parents.
