

OUR PHILOSOPHY

In the best interest of Students CPIPS emphasizes individual growth for students to become confident global citizens by providing advanced, safe, healthy and a caring learning environment, so that students will feel as though they are in their second home because of our dedication to them as a family.

OUR VISION

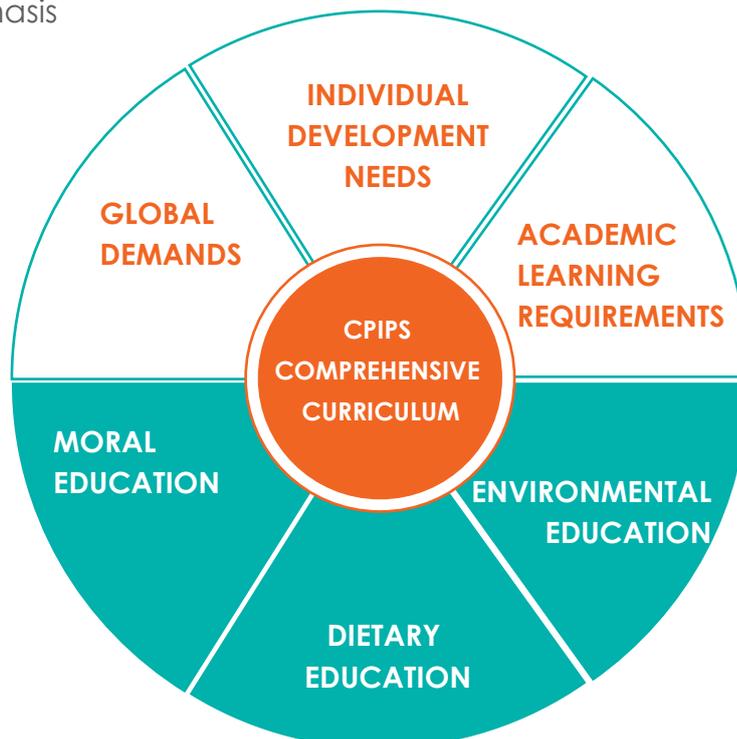

It is our goal to ensure CPIPS students learn to:

- Think and act on their own.
- Manage their own affairs.
- Determine right from wrong, and act thoughtfully.
- Appreciate friendship and be considerate.
- Understand the importance of certain rules and try to observe through interactions.

HOLISTIC LEARNING APPROACH

CPIPS believes that for the sound development of Students, not only memorizing textbook information is important, but also moral, emotional and physical cultivation are important. Therefore we provide holistic education covering areas satisfying global demands, individual development needs and academic learning requirements.

Above all, CPIPS puts emphasis on developing Students' sense of morality, forming their adequate dietary behaviour and establishing their environmental consciousness through daily life experience.

CombiPLAZA

International Pre-School

MORAL EDUCATION

When surrounded by diversified values, one may encounter a situation where it is difficult to judge good from bad. In order to have each child enable to make right judgment by looking into one's self, CPIPS encourages Students to form appropriate living habits and to have good morals through experiences such as interaction with friends and adults. CPIPS also focuses on ensuring environment where students feel loved by others so that in turn they are gentle to friends and others. Self-control is another important aspect CPIPS asserts.

DIETARY EDUCATION

Through various hands-on activities such as cooking, gardening, dining and studying from books, Students will acquire important dietary knowledge, behaviour and manner that are indispensable for healthy living and a social life.

At CPIPS, a variety of hot and fresh lunches with handmade snacks are served daily for all ages. Recipes for age-appropriate, nutritious and delicious meals are taken directly from the Nutrition-book developed by expert in childcare facilities in Japan.

ENVIRONMENTAL EDUCATION

Preserving nature and living an Eco-friendly life are our great responsibilities for a sustainable future. CPIPS offers programmes such as nature/outdoor activities; experience of transforming what we assume to be obsolete into something useful; or activities involving parents to further encourage students to be considerate of surrounding nature and protect the environment, while having fun.

CURRICULUM

CPIPS thinks highly of learning English at an early age as one of the basic skills in the era of globalization, in addition to fulfilling academic learning requirements in the area such as literacy, math, knowledge and understanding. In this regard, CPIPS also adopts for its kindergarten students the 'International Early Years Curriculum' which coincides with our sensibilities as it is based on ■ Enquiry ■ Adaptability ■ Resilience ■ Morality ■ Communication ■ Thoughtfulness ■ Cooperation ■ Respect which is taught by native English teachers.

ALL YOU NEED TO KNOW

CombiPLAZA

International Pre-School

For younger ones, emphasis will be put on play-based activities, also instructed by native English teachers, where Students can become familiar with English through songs, picture books, and playing while having fun. CPIPS also uses the Playtime books which reflect the world of pre-school children and provide a natural context in which to present language using characters they can identify with. For all ages, physical activities such as swimming, gymnastics and outdoor activities are implemented for the development of motor skills and sound growth. Throughout the curricula, CPIPS cultivates Student's capacity and potential through stimulating five senses, and fosters rich humanity and consideration. Several conventional events and customs of the world will be incorporated to provide Students chances to have an experience and deepen respect for traditions and culture all over the world.

CPIPS UNIQUE ADVANTAGES:

Live web-cam images are accessible via Internet by registered parents to see how their children are doing at CPIPS through a simple App installation on their phone.

Transparent Communication through Communication books that go between parents & teachers on a daily basis or when necessary. And easily accessible teachers & Principal.
